

To: Prospective Applicants for Discharges from Potable Water Treatment Plants

Attached is a **Potable Water Treatment Plant Notice of Intent (NOI) H2O-G**, for a Louisiana Pollutant Discharge Elimination System (LPDES) permit, authorized under EPA's delegated NPDES program under the Clean Water Act. To be considered complete, <u>every item</u> on the form must be addressed and the last page signed by an authorized company agent. If an item does not apply, please enter "NA" (for not applicable) to show that the question was considered.

Two copies (one original and one copy) of your <u>completed</u> NOI, <u>each</u> with a marked U.S.G.S. **Quadrangle map** or equivalent attached, should be submitted to:

Mailing Address:

Department of Environmental Quality Office of Environmental Services Post Office Box 4313 Baton Rouge, LA 70821-4313 Attention: Water Permits Division Physical Address (if NOI is hand delivered):

Department of Environmental Quality Office of Environmental Services 602 N Fifth Street Baton Rouge, LA 70802

Attention: Water Permits Division

Please be advised that completion of this NOI may not fulfill all state, federal, or local requirements for facilities of this size and type.

According to L. R. S. 48:385, any discharge to a state highway ditch, cross ditch, or right-of-way shall require approval from:

Louisiana DOTD Office of Highways Post Office Box 94245 Baton Rouge, LA 70804-9245 (225) 379-1927 AND

Louisiana DHH
Office of Public Health
Center for Environmental Services
Post Office Box 4489
Baton Rouge, LA 70821-4489
(225) 342-7499

In addition, the plans and specifications for sanitary treatment plants must be approved by the Louisiana DHH, Office of Public Health at the address above.

A copy of the LPDES regulations may be obtained from the LDEQ web site at http://www.deq.louisiana.gov/portal/tabid/1674/Default.aspx#Title33 or from the Office of Environmental Assessment, Regulations Development Section, Post Office Box 4314, Baton Rouge, Louisiana 70821-4314, phone (225) 219-3550.

After the review of the NOI, this Office will issue written notification to those applicants who are accepted for coverage under this general permit.

For questions regarding this NOI please contact the Water Permits Division at (225) 219-9371. For help regarding completion of this NOI please contact DEQ, Small Business/Small Community Assistance at 1-800-259-2890.

| | Daily Maximum | 30-Day Maximum* | 30-Day Low Flow | Method of Measure | |
| Flow (GPD) | | | | | |
| | Minimum | Maximum | | | |
| Discharge Duration (hrs/day) | | | | | |
| pH (SU) | | | | | |

^{*} Within the previous two years. (The Maximum 30-Day value is the highest value of all the monthly averages over the previous two years. The 30-Day Low Flow is the lowest value of the monthly averages over the previous two years.)

SECTION III - LABORATORY ANALYSIS (cont.)

| | SECTION III – LABORATORT ANALTSIS (cont.) | | | | |
|-----------------------------------|--|--|--|--|--|
| C. | Toxicity Data. List any bioassay tests conducted on the effluent from the facility. Provide a summary of the test results. | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| D. | Laboratory Accreditation If any of the analysis reported above were performed by a contract lab or consulting firm, provide the firm name, address, phone number and pollutants analyzed. | | | | |
| | | | | | |
| | Laboratory procedures and analyses performed by commercial laboratories shall be conducted in accordance with the requirements set forth under LAC 33:I.Subpart 3, Chapters 49-55. | | | | |
| | Laboratory data generated by commercial laboratories that are not accredited under LAC 33:I.Subpart 3, Chapters 47-57, will not be accepted by the department. Retesting of analysis will be required by an accredited commercial laboratory. | | | | |
| | In the case where effluent testing was completed by an unaccredited laboratory, and where retesting is not possible (i.e. data reported on DMRs for prior month's sampling), the data generated will be considered invalid and in violation of the LPDES permit. | | | | |
| | Regulations on the Environmental Laboratory Accreditation Program and a list of labs that have applied for accreditation, are available on the department website. The list can be found on the DEQ website http://www.deq.louisiana.gov/portal/ using the following path: DIVISIONS – Public Participation and Permit Support – Louisiana Laboratory Accreditation Program – Accredited Laboratories. | | | | |
| | Questions concerning the program may be directed to (225) 219-3247. | | | | |
| | SECTION IV – COMPLIANCE HISTORY | | | | |
| exci and adm enfo adm | ort the history of all violations and enforcement actions for the facility, a summary of all permit arsions including effluent violations reported on the facility's Discharge Monitoring Reports (DMRs) bypasses for the last three years. Using a brief summary, report on the current status of all ministrative orders, compliance orders, notices of violation, cease and desist orders, and any other procedure attended to the resolved within the past 3 years or currently pending. The state ministrative authority may choose, at its discretion, to require a more in-depth report of violations and appliance actions for the applicant covering any law, permit, or order concerning pollution at this or any per facility owned or operated by the applicant. | | | | |
| If th | is facility has been inspected by LDEQ within the past three years, please provide the inspection date: | | | | |
| | | | | | |

SECTION V – LAC 33.I.1701 REQUIREMENTS

- B. Site Diagram. Attach to this application a complete site diagram of the facility, including clearly labeled buildings, clarifiers, filters, tanks, and settling ponds or other treatment methods, demonstrating how the wastewater flows through the facility into each clearly labeled discharge point (including all treatment points). Please indicate on the site diagram the location of the front gate or entrance to the facility. Hand drawn diagrams are acceptable and need not be to scale.
- C. Flow Diagram. Attach a line drawing of the water flow through the facility with a water balance showing operations contributing wastewater to the effluent and treatment units. The water balance must show average and maximum flows at intake and discharge points and between units, including treatment units. If a water balance cannot be determined the applicant may provide instead a pictorial description of the nature and amount of any sources of water and any collection and treatment measures. Hand drawn diagrams are acceptable and need not be to scale.

SECTION VIII - SIGNATURE

According to the Louisiana Water Quality Regulations, LAC 33:IX.2503, the following requirements shall apply to the signatory page in this application:

Chapter 25. Permit Application and Special LPDES Program Requirements

2503. Signatories to permit applications and reports

- A. All permit applications shall be signed as follows:
 - 1. <u>For a corporation</u> by a responsible corporate officer. For the purpose of this Section, a responsible corporate officer means:
 - (a) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation, or,
 - (b) The manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility, including having the explicit or implicit duty of making major capital investment recommendations and initiating and directing other comprehensive measures to ensure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements, and the authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

NOTE: DEQ does not require specific assignments or delegations of authority to responsible corporate officers identified in the Permit Standard Conditions, Section D.10.a(1)(a). The agency will presume that these responsible corporate officers have the requisite authority to sign permit applications unless the corporation has notified the state administrative authority to the contrary. Corporate procedures governing authority to sign permit applications may provide for assignment or delegation to applicable corporate positions under Permit Standard Condition, Section D.10.a(1)(b) rather than to specific individuals.

- 1. <u>For a partnership or sole proprietorship</u> by a general partner or the proprietor, respectively; or
- 3. For a municipality, parish, state, federal or other public agency by either a principal executive officer or ranking elected official. For the purposes of this section a principal executive officer of a federal agency includes:
 - (a) The chief executive officer of the agency, or
 - (b) A senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., Regional Administrator of EPA).
- B. All reports required by permits and other information requested by the state administrative authority shall be signed by a person described in Permit Standard Conditions, Section D.10.a., or by a duly authorized representative of that person. A person is a duly authorized representative only if:
 - 1. The authorization is made in writing by a person described in Permit Standard Conditions, Section D.10.a.

- 2. The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity such as the position of plant manager, operator of a well or well field, superintendent, position of equivalent responsibility, or an individual or position having overall responsibility for environmental matters for the company, (a duly authorized representative may thus be either a named individual or any individual occupying a named position); and
- 3. The written authorization is submitted to the state administrative authority.
- C. Changes to authorization. If an authorization under Permit Standard Conditions, Section D.10.b is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, a new authorization satisfying the requirements of Section D.10.b must be submitted to the state administrative authority prior to or together with any reports, information, or applications to be signed by an authorized representatiave.
- D. Any person signing any document under Permit Standard Conditions, Section D.10.a. or b shall make the following certification:
 - "I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."

SIGNATORY AND AUTHORIZATION

Pursuant to the Water Quality Regulations (specifically LAC 33:IX.2503) promulgated September 1995, the state permit application must be signed by a responsible individual as described in LAC 33:IX.2503 and that person shall make the following certification:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."

CHECKLIST

To prevent any unnecessary delay in the processing of your notice of intent to be covered under the general permit, please take a moment and check to be certain that the following items have been addressed and enclosed:

- 1. <u>ALL</u> questions and requested information have been answered (N/A if the question or information was not applicable).
- 2. ALL required maps, drawings, lab analysis, and other reports are enclosed.
- 3. The appropriate person has signed the signatory page.
- 4. Please forward the original and one copy of this application and all attachments.

ANY APPLICATION THAT DOES NOT CONTAIN ALL OF THE REQUESTED INFORMATION WILL BE CONSIDERED INCOMPLETE. APPLICATION PROCESSING WILL NOT PROCEED UNTIL ALL REQUESTED INFORMATION HAS BEEN SUBMITTED.

NOTE: UPON RECEIPT AND SUBSEQUENT REVIEW OF THE APPLICATION BY THE WATER PERMITS DIVISION, YOU MAY BE REQUESTED TO FURNISH ADDITIONAL INFORMATION IN ORDER TO COMPLETE THE PROCESSING OF THE PERMIT.
